FINDINGS AND DECISION

This medical fee dispute is decided pursuant to Texas Labor Code §413.031 and applicable rules of the Texas Department of Insurance, Division of Workers' Compensation.

Background

- 28 Texas Administrative Code §133.307 sets out the procedures for resolving medical fee disputes.
- 28 Texas Administrative Code §134.403 sets out the reimbursement guidelines for outpatient hospital services.
- The insurance carrier reduced payment for the disputed services with the following claim adjustment codes:
 - 219 – Based on extent of injury (not maintained as per respondent's position statement, "the provider resubmitted the bill with supporting documentation to show that the surgery was for the compensable injury."

- 59 – Charges are adjusted based on multiple surgery rules or concurrent anesthesia rules
- 16 – Documentation does not support billed services
- P12 – Workers’ compensation jurisdictional fee schedule adjustment
- P14 – The Benefit for this Service is included in the payment/allowance for another service/procedure that has been performed on the same day

Issues

1. What rule applies to reimbursement?
2. What is the maximum allowable reimbursement?
3. Is the requestor entitled to additional reimbursement?

Findings

1. The requester seeks reimbursement of \$8,747.70 for outpatient hospital services rendered on March 17, 2016.

The requestor states, “Total Allowable per Medicare: \$8,747.70.” The respondent states, “It is Starr Comprehensive Solutions position that Baylor Surgical Hospital at Trophy Club has been reimbursed appropriately and in accordance with the 134.403 Hospital Facility Fee Guideline – Outpatient(f)(1)(B).”

As both positions are related to the appropriate fee, this review will consider the applicable fee guideline found in 28 Texas Administrative Code §134.403, “Hospital Facility Fee Guideline--Outpatient.”

The relevant portions are:

(b) Definitions for words and terms, when used in this section, shall have the following meanings, unless clearly indicated otherwise

(3) "Medicare payment policy" means reimbursement methodologies, models, and values or weights including its coding, billing, and reporting payment policies as set forth in the Centers for Medicare and Medicaid Services (CMS) payment policies specific to Medicare.

(d) For coding, billing, reporting, and reimbursement of health care covered in this section, Texas workers' compensation system participants shall apply Medicare payment policies in effect on the date a service is provided with any additions or exceptions specified in this section, including the following paragraphs.

(f) The reimbursement calculation used for establishing the MAR shall be the Medicare facility specific amount, including outlier payment amounts, determined by applying the most recently adopted and effective Medicare Outpatient Prospective Payment System (OPPS) reimbursement formula and factors as published annually in the Federal Register. The following minimal modifications shall be applied.

(1) The sum of the Medicare facility specific reimbursement amount and any applicable outlier payment amount shall be multiplied by:

(A) 200 percent; unless

(B) a facility or surgical implant provider requests separate reimbursement in accordance with subsection (g) of this section, in which case the facility specific reimbursement amount and any applicable outlier payment amount shall be multiplied by 130 percent.

2. The Medicare payment policies used to calculate the MAR are found at, www.cms.gov/Medicare/Medicare-Fee-for-Service-Payment/HospitalOutpatientPPS.

The resources that define the components used to calculate the Medicare payment for OPPS are found below:

- **How Payment Rates Are Set**, found at www.cms.gov/Outreach-and-Education/Medicare-Learning-Network-MLN/MLNProducts/Downloads/HospitalOutpaysysfctsh.pdf,

- *To account for geographic differences in input prices, the labor portion of the national unadjusted payment rate (60 percent) is further adjusted by the hospital wage index for the area where payment is being made. The remaining 40 percent is not adjusted.*

- **Payment status indicator** - The status indicator identifies whether the service described by the HCPCS code is paid under the OPPTS and if so, whether payment is made separately or packaged. The status indicator may also provide additional information about how the code is paid under the OPPTS or under another payment system or fee schedule. The relevant status indicator may be found at the following: www.cms.gov, Hospital Outpatient Prospective Payment – Final Rule, OPPTS Addenda, Addendum, D1.
- **APC payment groups** - Each HCPCS code for which separate payment is made under the OPPTS is assigned to an ambulatory payment classification (APC) group. The payment rate and coinsurance amount calculated for an APC apply to all of the services assigned to the APC. A hospital may receive a number of APC payments for the services furnished to a patient on a single day; however, multiple surgical procedures furnished on the same day are subject to discounting. The relevant payment amount for each APC may be found at: www.cms.gov, Medicare/Medicare-Fee-for-Service-Payment/HospitalOutpatientPPS/Annual-Policy-Files, Addendum B. These files are updated quarterly.
- **Multiple procedure discounts** - Multiple surgical procedures furnished during the same operative session are discounted. The full amount is paid for the surgical procedure with the highest weight; Fifty percent is paid for any other surgical procedure(s) performed at the same time;

Review of the submitted medical claim finds a request for separate reimbursement of implantables. The services in dispute will be reviewed per the 28 Texas Administrative Code § 134.403 (f)(1)(B).

| Procedure Code | Status Indicator | APC | Payment Rate | Does multiple procedure discounts apply | 60% labor related | 2016 Wage Index Adjustment for provider 0.9731 | 40% non-labor related | Payment | Maximum allowable reimbursement |
|----------------|------------------|------|--------------------------------------|---|-------------------------------------|--|-----------------------------------|--|--------------------------------------|
| C1762 | N | See | below | n/a | | | | | |
| 29879 | T | 5122 | \$2,395.59 | No | \$2,395.59 x 60% = \$1,437.35 | \$1,437.35 x 0.9731 = \$1,398.69 | \$2,395.59 x 40% = \$958.24 | \$1,398.69 +958.24 = \$2,356.93 | \$2,356.93 X 130% = \$3,064.01 |
| 29880 | T | 5122 | \$2,395.59 at 50% = \$1,197.80 | Yes | \$1,197.80 x 60% = \$718.68 | \$718.68 x 0.9731 = \$699.35 | \$1,197.80 x 40% = \$479.12 | \$699.35 + \$479.12 = \$1,178.47 | \$1,178.47 X 130% = \$1,532.01 |
| | | | | | | | | Total | \$4,596.02 |

Status Indicator **N** has the following definition – “Items and Services Packaged into APC Rates. Paid under OPPTS; payment is packaged into payment for other services. Therefore, there is no separate APC payment.” Based on this status indicator the following codes are not separately payable: C1762. Separate reimbursement for the implantable requested however, the submitted code does not allow separate reimbursement based on the status indicator.

3. The total allowable reimbursement for the services in dispute is \$4,596.02. This amount less the amount previously paid by the insurance carrier of \$4,597.41 on February 1, 2017, leaves an amount due to the requestor of \$0.00. No additional reimbursement recommended.

ORDER

Based upon the documentation submitted by the parties and in accordance with the provisions of Texas Labor Code §413.031, the Division has determined that the requestor is entitled to \$0.00 additional reimbursement for the services in dispute.
